Vaping Product Investigation: DPHHS recently sent out two Health Alert Network (HAN) messages detailing newly identified risks related to vaping products. The HANs provided a general description of the conditions that are being observed and requesting health care providers to report any individuals, suspected of similar illnesses, to their local public health authorities. While Montana has not identified any confirmed cases, several suspects are being evaluated. You can stay up to date as this situation evolves by visiting the DPHHS web site at: <https://dphhs.mt.gov/publichealth/mtupp/vapingpulmonarydisease> and review the HAN messages at: <https://dphhs.mt.gov/publichealth/han> If you receive any reports of possible cases in your jurisdiction please notify DPHHS's State Epidemiologist, Laura Williamson, at 444-0064 (lwilliamson@mt.gov) or Chronic Bureau's Senior Epidemiologist, Lisa Richidt, at 444-0927 (lisa.richidt@mt.gov).
