Press Release

Gallatin County COVID-19 Update (Evening)

On Wednesday, March 25, 2020, 5 new cases of COVID-19 were confirmed in Gallatin County. That brings our total to 24 cases.

Information on the genders and age ranges of all of our positive cases can be found online provided by the State of Montana here:

<https://montana.maps.arcgis.com/apps/MapSeries/index.html?appid=7c34f3412536439491adcc2103421d4b>

All Gallatin County cases consist of community transmission, close contact, and travel related history.

Social distancing remains the most critical action the community can take to slow the spread of COVID-19. That means:

- Limiting contact with groups of people, whether you're sick or not, and maintaining social distancing when in public as much as possible.
- Staying home whenever possible, except for your essential needs.
- Self-isolating when you are sick, even with mild symptoms.
- Frequently washing your hands with soap and water, and regularly cleaning and disinfecting frequently touched surfaces.
- Work from home if possible.
- Self-quarantine for 14 days if you've recently returned home from international travel.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.
