

STEPS TO MINIMIZE THE RISK OF COVID-19

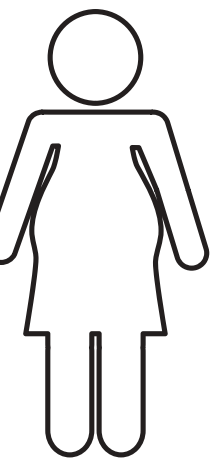

In response to Public Health direction, take these steps:

 Self-monitor daily for fever, cough, and shortness of breath.

 Send sick employees home.

 Allow high-risk employees to stay home (people over 60, pregnant women, medical conditions).

 Make handwashing and hand sanitizer available.

 Clean and sanitize surfaces frequently.

 Remind customers to stand 6 feet apart while waiting for a pick-up order.

 Ask all employees to read this poster.
