Press Release

Gallatin County COVID-19 Update

As of Wednesday, May 6, 2020, at 12 p.m. Gallatin County has no new confirmed cases of COVID-19, for a cumulative total of 146. There are zero confirmed active cases. There have been a total of 145 people recovered and 2,439 people tested in Gallatin County. One person has died from COVID-19 complications.

The Gallatin City-County Health Department calculates the **recovered case number** as the number of total cases minus any active cases, current hospitalizations and deaths.

More data can be found on GCCHD's new dashboard on our website at this link:
<https://www.healthygallatin.org/coronavirus-covid-19/>.

This dashboard will be updated by 12 p.m. each day.

Information on statewide cases continue to be found here:
<https://montana.maps.arcgis.com/apps/MapSeries/index.html?appid=7c34f3412536439491adcc2103421d4b>

Please note that local data on active cases may differ from the state map as the state map is only updated once daily and calculates active cases differently.

All Gallatin County cases consist of community transmission, close contact, and travel related history.

As Gallatin County dwellers start to tip-toe out of our homes and inch back toward our modified life in [phase one](#), we have a unique chance in reshaping our new normal. As we continue to practice social distancing, use face coverings, wash our hands and disinfect, we're also able to look back with a crisp perspective on the past several months and start to plan how and what we want to reconnect with.
