Press Release

Gallatin County COVID-19 Update

As of Tuesday, June 9, 2020, at 11 a.m. Gallatin County has four new confirmed cases of COVID-19, for a cumulative total of 168. As a result of our data reconciliation with the state health department, we have updated yesterday's total case count to 164 cases.

There are nine confirmed active cases. There have been a total of 158 people recovered in Gallatin County. One person has died from COVID-19 complications.

Active cases of COVID-19 are located in various locations across Gallatin County.

On Tuesday, the Gallatin City-County Board of Health voted to amend the local public health rule in order to continue phased reopening of bars and restaurants in a manner consistent with statewide directives from Gov. Steve Bullock.

The amended rule allows bars, restaurants, breweries, distilleries and casinos to stay open one hour later, until 12:30 a.m. The rule also allows limited seating at bars, with restrictions intended to limit contact with serving areas and bartenders or staff.

Details of the new changes can be found in appendix C (pg. 26) of [the local emergency health rule](#).

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#).

Please note that local data on active cases may differ from the state map as the state map.

The Gallatin City-County Health Department calculates the **recovered case number** as the number of total cases minus any active cases, current hospitalizations and deaths.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
