Press Release

Gallatin County COVID-19 Update

As of Thursday, July 23, 2020, at 12 p.m. Gallatin County has 39 new confirmed cases of COVID-19, for a cumulative total of 713. There are 89 confirmed active cases and 3 current hospitalizations. There have been a total of 623 people recovered in Gallatin County. One person has died from COVID-19 complications.

One case previously assigned to another area has been reassigned to Gallatin County and added to a previous day's totals.

The new cases are located across Gallatin County and are related to community transmission, contacts to known cases and travel.

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#).

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

The Gallatin City-County Health Department calculates the **recovered case number** as the number of total cases minus any active cases, current hospitalizations and deaths.

Gallatin County has been identifying a large number of positive COVID-19 cases. The Health Department is detecting widespread community transmission that will most likely continue for some time. Cases are identified from all over the County and are not limited to one or two locations.

This significant case load is pushing the limit of Health Department contact tracing staff and resources. Please do your part to slow the spread: wash your hands, social distance, wear a face covering in public places, and stay home if you are sick.

215 W. MENDENHALL, BOZEMAN MT 59715

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
