Press Release

Gallatin County COVID-19 Update

As of Thursday, Aug. 6, 2020, at 12 p.m. Gallatin County has six new confirmed cases of COVID-19, for a cumulative total of 921. There are 43 confirmed active cases and one current hospitalization. There have been a total of 875 people recovered in Gallatin County. Three people have died from COVID-19 complications.

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#).

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

The Gallatin City-County Health Department calculates the **recovered case number** as the number of total cases minus any active cases, current hospitalizations and deaths.

The median age of those diagnosed with COVID-19 in Gallatin County has fallen as the pandemic has gone on. And young people have more close contacts, both professionally and socially. Summer may be here, but COVID-19 cases continue to rise and we need everyone's help to minimize the spread to our neighbors, family members, and loved ones.

Whether you're young or old, city-dwellers or rural residents, year-long residents, snow birds or vacationers, do your part to prevent the spread: avoid the crowds, wash your hands, keep your distance, wear a face covering, and stay home if you are sick.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
