Press Release

Gallatin County COVID-19 Update

As of Tuesday, Sept. 1, 2020, at 12 p.m. Gallatin County has five new confirmed cases of COVID-19, for a cumulative total of 1,095. There are 37 confirmed active cases and one current hospitalization. There have been a total of 1,055 people recovered in Gallatin County. Three people have died from COVID-19 complications.

Two cases previously assigned to Gallatin County were reassigned to other areas.

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#).

And weekly COVID-19 surveillance reports can be found [here](#). New reports are released each Friday.

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

A recovered case means that a person who tested positive for COVID-19 has been released from isolation. It's important to note that even when people are released from isolation, many continue to feel the effects of COVID-19 infection long after they are released from isolation.

The Gallatin City-County Health Department calculates the recovered case number as the number of total cases minus any active cases, current hospitalizations and deaths.

Before the first day of school, please teach your children when and how to properly wash their hands. For helpful tips, please visit: <https://www.cdc.gov/handwashing/when-how-handwashing.html>

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
