### Press Release

#### Gallatin County COVID-19 Update

As of Friday, Sept. 4, 2020, at 12 p.m. Gallatin County has five new confirmed cases of COVID-19, for a cumulative total of 1,119. There are 29 confirmed active cases and three current hospitalizations. There have been a total of 1,087 people recovered in Gallatin County. Three people have died from COVID-19 complications.

One case previously assigned to another area has been reassigned to Gallatin County and added to a previous day's total.

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#). And weekly COVID-19 surveillance reports can be found [here](#). New reports are released each Friday. You can find the Sept. 4 report [here](#).

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

A recovered case means that a person who tested positive for COVID-19 has been released from isolation. It's important to note that even when people are released from isolation, many continue to feel the effects of COVID-19 infection long after they are released from isolation.

The Gallatin City-County Health Department calculates the recovered case number as the number of total cases minus any active cases, current hospitalizations and deaths.

Are you looking to get out into the mountains for the Labor Day weekend? Please, stay vigilant about limiting group sizes, maintaining social distancing, practicing good hand hygiene, and not taking unnecessary risks in the outdoors.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at [callcenter@readygallatin.com](mailto:callcenter@readygallatin.com).

The most accurate local source of information remains the GCCHD [website](#).
