### Press Release

#### Gallatin County COVID-19 Update

As of Tuesday, September 8, 2020, at 12 p.m. Gallatin County has 24 new confirmed cases of COVID-19 since Friday, September 4, for a cumulative total of 1,144. There are 39 confirmed active cases and 2 current hospitalizations. There have been a total of 1,102 people recovered in Gallatin County. Three people have died from COVID-19 complications.

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#).

Weekly COVID-19 surveillance reports can be found [here](#). New reports are released each Friday.

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

A recovered case means that a person who tested positive for COVID-19 has been released from isolation. It's important to note that even when people are released from isolation, many continue to feel the effects of COVID-19 infection long after they are released from isolation.

The Gallatin City-County Health Department calculates the recovered case number as the number of total cases minus any active cases, current hospitalizations and deaths.

Prepare now and be ready to adjust as we move through school reopening. Learn more about school reopening and other frequently asked questions at <https://www.healthygallatin.org/coronavirus-covid-19/schools/>

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at [callcenter@readygallatin.com](mailto:callcenter@readygallatin.com).

The most accurate local source of information remains the GCCHD [website](#).
