Press Release
Gallatin County COVID-19 Update

As of Friday, Oct. 2, 2020, at 10:30 a.m. Gallatin County has 68 new confirmed cases of COVID-19, for a cumulative total of 1,577. There are 198 confirmed active cases and eight current hospitalizations. There have been a total of 1,375 people recovered in Gallatin County. Four people have died from COVID-19 complications.

One case previously assigned to another area has been assigned to Gallatin County and added to a previous day’s total.

Weekly COVID-19 surveillance reports can be found here. New reports are released each Friday. You can find the Oct. 2 report here.

More data can be found on Gallatin City-County Health Department’s dashboard on our website here. This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found here.

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

A recovered case means that a person who tested positive for COVID-19 has been released from isolation. It’s important to note that even when people are released from isolation, many continue to feel the effects of COVID-19 infection long after they are released from isolation.

The Gallatin City-County Health Department calculates the recovered case number as the number of total cases minus any active cases, current hospitalizations and deaths.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD website.
