Press Release

Gallatin County COVID-19 Update

As of Wednesday, Oct. 14, 2020, at 12 p.m. Gallatin County has 61 new confirmed cases of COVID-19, for a cumulative total of 2,089. There are 272 confirmed active cases and eight current hospitalizations. There have been a total of 1,813 people recovered in Gallatin County. Four people have died from COVID-19 complications.

One case that was previously assigned to another area has been reassigned to Gallatin County and added to a previous day's total.

More data can be found on Gallatin City-County Health Department's dashboard on our website [here](#). This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found [here](#).

And weekly COVID-19 surveillance reports can be found [here](#). New reports are released each Friday.

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

A recovered case means that a person who tested positive for COVID-19 has been released from isolation. It's important to note that even when people are released from isolation, many continue to feel the effects of COVID-19 infection long after they are released from isolation.

The Gallatin City-County Health Department calculates the recovered case number as the number of total cases minus any active cases, current hospitalizations and deaths.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
