Press Release
COVID-19 Death in Gallatin County

The Gallatin City-County Health Department is saddened to announce that one more Gallatin County resident has passed away from complications due to COVID-19.

This person was a female in her 60s who died in a hospital the week of October 17. The Gallatin City-County Health Department received the official death certificate yesterday that attributed her death to COVID-19.

This latest death makes for a total of 89 COVID-related deaths in Gallatin County. Statewide data reported by the Montana Department of Public Health and Human Services can be found [here](#).

In Gallatin County, 63% of eligible residents are fully vaccinated. From July 1 to November 6, 2021, Gallatin County saw 251 residents hospitalized who were positive for COVID-19. Of those, 201 individuals were unvaccinated or approximately 80%. From September 11 to November 5, 2021 statewide, [MT DPHHS reported](#) 412 deaths attributed to COVID-19. Of those deaths, 315 were unvaccinated or 76%.

The COVID-19 vaccines are safe and effective at reducing the risk of severe infection, hospitalization, and death. COVID-19 vaccines are available to anyone over the age of 12, and Pediatric Pfizer has now been approved for those 5 to 11 years old. You can find your COVID-19 vaccine from local pharmacies and clinics throughout the county. It is highly recommended that you make a plan to get fully vaccinated to help protect yourself and others.

The GCCHD website provides up-to-date times, dates, and locations where you can get your COVID-19 vaccine anywhere in Gallatin County. [Visit our website](#) and make a plan to get your vaccine today.
