Press Release
COVID-19 Deaths in Gallatin County

The Gallatin City-County Health Department is saddened to announce that six more Gallatin County residents have passed away from complications due to COVID-19.

The Gallatin City-County Health Department received the official death certificates yesterday and today that attributed the following deaths to COVID-19. A female in her 90s passed away at an assisted living facility the week of November 14. The following people passed away the week of October 31, a male in his 50s who died in a hospital, a female in her 90s who died at an independent living facility, a male in his 70s who died in a hospital outside of our jurisdiction, and a female in her 70s who died in hospice outside of our jurisdiction. We also received a notification for an updated death certificate, that includes COVID-19, for a female in her 70s who died at her residence the week of September 26.

These latest deaths make for a total of 98 COVID-related deaths among Gallatin County residents. Statewide COVID-19 case data reported by the Montana Department of Public Health and Human Services can be found [here](#).

In Gallatin County, 57% of eligible residents are fully vaccinated, eligible residents now include children ages 5 to 11. For additional details on vaccine metadata, [click here](#). From July 1 to November 13, 2021, Gallatin County saw 267 residents hospitalized who were positive for COVID-19. Of those, 216 individuals were unvaccinated or approximately 81%. From September 11 to November 5, 2021 statewide, [MT DPHHS reported](#) 412 deaths attributed to COVID-19. Of those deaths, 315 were unvaccinated or 76%.

You can find your COVID-19 vaccine from local pharmacies and clinics throughout the county. It is highly recommended that you make a plan to get fully vaccinated to help protect yourself and others.
