Press Release
COVID-19 Death in Gallatin County

The Gallatin City-County Health Department is saddened to announce that one more Gallatin County resident has passed away from complications due to COVID-19.

This person was a female in her 60s who died at a hospital the week of November 28. The Gallatin City-County Health Department received the official death certificate yesterday that attributed her death to COVID-19. Out of respect for this woman's family and friends, no further details will be released.

This latest death makes for a total of 104 COVID-related deaths in Gallatin County. Statewide data reported by the Montana Department of Public Health and Human Services can be found [here](#).

In Gallatin County, 60% of eligible residents are fully vaccinated. For additional details on vaccine metadata, [click here](#). From April 1 to December 11, 2021, Gallatin County saw 378 residents hospitalized who were positive for COVID-19. Of those, 316 individuals were unvaccinated or approximately 84%. From April 1 to December 10, 2021 statewide, [MT DPHHS reported](#) 1,196 deaths were attributed to COVID-19. Of those deaths, 926 or 77% were unvaccinated.

You can find your COVID-19 vaccine from local pharmacies and clinics throughout the county. It is highly recommended that you make a plan to get fully vaccinated to help protect yourself and others.

The GCCHD website provides up-to-date times, dates, and locations where you can get your COVID-19 vaccine anywhere in Gallatin County. [Visit our website](#) and make a plan to get your vaccine today.
