For immediate release: December 3, 2021

Press Release
COVID-19 Death in Gallatin County

The Gallatin City-County Health Department is saddened to announce that one more Gallatin County resident has passed away from complications due to COVID-19.

This person was a female in her 80s who died at an assisted living facility the week of November 7. The Gallatin City-County Health Department received the official death certificate this week that attributed her death to COVID-19. Out of respect for this woman’s family and friends, no further details will be released.

This latest death makes for a total of 103 COVID-related deaths in Gallatin County. Statewide data reported by the Montana Department of Public Health and Human Services can be found here.

In Gallatin County, 58% of eligible residents are fully vaccinated. For additional details on vaccine metadata, click here. From April 1 to November 27, 2021, Gallatin County saw 362 residents hospitalized who were positive for COVID-19. Of those, 302 individuals were unvaccinated or approximately 83%. From April 1 to November 19, 2021 statewide, MT DPHHS reported 942 deaths were attributed to COVID-19. Of those deaths, 722 or 77% were unvaccinated.

You can find your COVID-19 vaccine from local pharmacies and clinics throughout the county. It is highly recommended that you make a plan to get fully vaccinated to help protect yourself and others.

The GCCHD website provides up-to-date times, dates, and locations where you can get your COVID-19 vaccine anywhere in Gallatin County. Visit our website and make a plan to get your vaccine today.
