### **Home Heating Costs**

HRDC offers programs that help with winter heating costs during the months of October – April. There are eligibility guidelines based on income and assets but everyone is encouraged to apply. Energy assistance programs can help home owners or renters with natural gas, electricity, wood, propane or heating costs included in rent.

### **Water Bill Assistance**

HRDC offers a program to help households with water bills. There are eligibility guidelines but everyone is encouraged to apply.

### **Home Weatherization**

HRDC helps households reduce their heating bills by installing energy conservation measures in rentals and owned homes at no cost to the renter or home owner. We can help make your home as efficient as possible and reduce monthly bills. A weatherized home is safer and healthier for everyone.

### **Assistance for Energy Related Emergencies**

HRDC may be able to help with a no interest loan through Energy Share of Montana to households in energy related emergencies. Energy emergencies include: a “shut-off pending” notice from the power company; no funds to purchase heating fuel; inability to access services because of past heating related debt or a non-functioning furnace or a no heat situation.

HRDC's Energy Programs proudly serve,  
Gallatin, Park and Meagher Counties.
